StudentInternshipPortal

How to Run

1. Open project in NetBeans

2. Start Apache Tomcat

3. Run project

4. Link: http://localhost:8080/StudentInternshipPortal/

Login Details

Admin:

Username: admin

Password: Demo1234

Redirects to: adminDashboard.jsp

If login fails it shows: "All fields must be filled" on login.jsp

Student Registration & Login

##Registration Page: register.jsp / studentRegister.jsp

How it works:

1. Student opens http://localhost:8080/StudentInternshipPortal/register.jsp

2. Fills in:

   - Full Name

   - Student Number (e.g. 2024030522)

   - Email

   - Password

- Confirm Password

3. Clicks Register

4. If fields empty -> shows "All fields must be filled" (same as your admin code)

5. If success -> redirects to login.jsp

##Student Login:

- Login page: login.jsp

- Enters Email/Student Number + Password

- If correct -> redirects to studentDashboard.jsp / internshipList.jsp

- If wrong -> shows error on login.jsp?err=1

##Validation:

- All fields required

- Passwords must match

- Email must contain @

Requirements

- JDK

- Tomcat

- MySQL
